

Gloucester Township Energy Aggregation Program (EAP) Announcement

January 16, 2021

Dear Gloucester Township Resident:

The Gloucester Township Energy Aggregation Program (EAP) will launch in March 2021 with the goal of using the Township's bulk-purchasing power to procure electric power **supply** on behalf of Township residents at a lower price than power supply provided by Atlantic City Electric (ACE). Gloucester Township has solicited price proposals from competing suppliers on several occasions in hopes of awarding a contract that is beneficial for its residents.

We are pleased to inform you that, as a result of the most recent bid process, the Township has awarded a contract to the low bidder, Great American Gas & Electric, LLC (GAGE), for a 22-month contract beginning in March 2021 for residential account holders who are located in ACE service territory. The new contract with GAGE will provide electric supply at a price that is nearly five (5) percent lower than the current price being paid by those residents currently receiving supply through ACE. Savings are estimated and will vary when compared to your utility tariff prices which will increase and/or decrease over the course of the Program.

GAGE is an electric supplier licensed by the state of New Jersey, has been in business since 2019, having experience serving other residential customers through energy aggregation programs like the Gloucester Township EAP. If you do not wish to participate in the Gloucester Township EAP, you can opt out by following the instructions provided in the Program Summary on the reverse side of this notice. If you do not opt out of the Gloucester Township EAP, you will receive an additional notification from ACE in March that your account is being automatically enrolled with the new Gloucester Township EAP supplier, GAGE, effective with your March 2021 meter read.

For residents seeking additional information, a Public Information Session will take place at 6:00 PM, on January 27, 2021 virtually at <https://zoom.us/j/91917107638?pwd=QnNSU01KckVud2E3RjVKajlPTWhWdz09>, Meeting ID: 919 1710 7638, Passcode: 12853, or dial by telephone [1-646-876-9923](tel:1-646-876-9923), 91917107638#. Further information about the Program, or any changes in date/time of the meeting, can be found on the Township's website, glotwp.com or on the Program website, GloucesterGEA.com/.

The Energy Aggregation Program is only for the energy **supply portion** of your electric service. The delivery portion will continue to be provided by ACE at regulated rates. ACE will continue to provide all routine, emergency and safety services. ACE will also continue to provide customer services such as meter readings, billing, and service restoration. If you are on an ACE budget billing plan/equal payment plan, you will not be automatically enrolled in the Program. You will instead, continue to receive service directly from ACE unless you opt into the Program. You may opt into the Program by contacting GAGE directly. ***Please review the enclosed materials and familiarize yourself with this program.***

Para obtener una copia en Español, por favor llamar a la Alcaldía al 1-866-269-9393, o visitar nuestro sitio de internet en al <https://gloucestergea.com/>.

Please note: if you do not opt out, you will receive a notice from ACE in approximately 30-45 days confirming enrollment in the EAP. Again, NO ACTION is required in order to participate in the Gloucester Township EAP.

**Gloucester Township Energy Aggregation Program (EAP)
Program Summary**

GAGE Information:	Great American Gas & Electric, LLC (BPU License #ESL-0241) Toll-Free Telephone Number: 1-866-269-9393 Website: ga-ge.com Address: 550 Mamaroneck Ave, Suite 305 A, Harrison NY 10528 Email Address: support@ga-ge.com
Price Structure:	Non-Variable Price ¹
Generation/Supply Price:	\$0.09766 per kilowatt-hour (kWh)
Statement Regarding Savings:	The contract supply price is nearly 5% below the current average ACE tariff supply price.
Time Required to Change Back to Default Service or Another Third-Party Supplier (TPS):	The request to switch out of the Program will become effective on the next available meter read date in accordance with processes implemented by ACE.
Right to Opt Out / Rescind / Cancel:	You will be automatically enrolled in the Gloucester Township EAP unless you submit an opt-out request during the 30-day opt-out period, which ends <u>February 16, 2021</u>. If you choose to opt out, please sign and return the enclosed postage pre-paid card, call GAGE toll-free at 1-866-269-9393, or submit via email at: <u>support@ga-ge.com</u> by <u>February 16, 2021</u>. If you do not opt out by <u>February 16, 2021</u>, you will be automatically enrolled. However, at any time thereafter, you may leave the Gloucester Township EAP with no associated fees. <i>You may also opt out through the Township's Energy Consultant at 1-800-625-1528.</i>
Program Start Date:	Service will begin with your March 2021 meter read date
Program Term/Length:	22 months, from your March 2021 meter read date until your January 2023 meter read date
Cancellation/Early Termination Fees:	None. You can opt out at any time, with no penalty or cancellation fee.
Renewal Terms:	No automatic roll-over or renewal. If a new contract is awarded by the Township, you will be notified, provided a new Program Summary, and will again be given the opportunity to participate in the Program or opt out. If no new contract is awarded by the Township, program participants will be returned to ACE supply service in January 2023.
ACE Contact Information:	Toll-Free Telephone Number: 1-800-642-3780

Residents receiving this notice who are outside the jurisdictional boundaries of Gloucester Township, please contact GAGE to be removed from the Program. Gloucester residents who do not receive this notice are permitted to join the Program any time.

¹Supplier cannot vary prices monthly or adjust prices for changed market conditions or change the rate after an initial 'teaser' period. The price will remain unchanged for the full contract term. The only exception is a one-time contract price adjustment resulting from a change in law that also affects the cost of power supply provided by ACE, in which case the contract price adjustment will not adversely impact the level of savings as compared to the ACE tariff price for power supply.
