**RE: TERMINATION NOTICE to the Government Energy Aggregation Services contract ("GEA") negotiated by your Township for the supply of electricity.**

Valued customer:

In accordance with the Government Energy Aggregation Agreement (the "GEA Agreement") executed on October 29, 2020, by and between the Township of Gloucester (the "Township") and Great American Gas & Electric LLC ("GAGE"), (collectively, "Parties"), this correspondence serves as notification to you, the Customer, of the termination of the Agreement negotiated by your Township, effective immediately. This termination notice is being provided in accordance with section 3.3.(b) and 3.4 of the Terms & Conditions of the GEA Agreement executed by the Township on your behalf and the New Jersey Board of Public Utilities ("BPU")'s regulations.

On July 1, 2021, GAGE provided the Township with notice of a price increase affecting the Agreement. The increase stemmed from a change in cost of Network Integration Transmission Service ("NITS"). NITS costs designed to accommodate several government approved and apportioned transmission projects within ACE's utilities service territory. GAGE acted within its contractual rights and responsibilities by notifying the Township of the upcoming price increase and by working diligently with the Program Administrator, Good Energy, LP, to seek and obtain approval from the NJ BPU on required customer correspondence. Per terms of the GEA Agreement, your Township had the right to accept or decline the proposed increase and they informed GAGE of their decision to reject the increase in rate.

Since the parties have been unable to complete price negotiation and modification of the Agreement, your electricity account supplied by GAGE through Atlantic City Electric ("ACE") will be returned to ACE for default service effective on your next meter reading date. You need not take any action if you wish to remain on default Basic Generation Service electric supply through ACE. Once GAGE submits the request for termination and return of your account to ACE, if you wish you may select another supplier or join GAGE as a non-GEA customer. GAGE's standard rates are available on our website at [www.ga-ge.com/enrollment](http://www.ga-ge.com/enrollment). Please know that this action will not cause you to experience any loss of electricity related to your termination of supply service with GAGE.

Should you have any questions about this correspondence please contact the Program administrator Good Energy at 1-800-625-1528; or for questions about your account with GAGE, please contact us via email at [customercare@ga-ge.com](mailto:customercare@ga-ge.com), Monday through Friday from 9:00 a.m. to 5:00 p.m. EST.

Sincerely,

Customer Care Team
